

PARESH PATIL

MERN Stack Developer

Email: 09patilparesh@gmail.com | Phone: +91 8007988089
GitHub: <https://github.com/Paresh09pat> | Location: Pune, Maharashtra, India
Portfolio: <https://paresh-port-folio.netlify.app/>

PROFESSIONAL SUMMARY

Skilled MERN Stack Developer with 2.6+ years of hands-on experience in React.js, Node.js, Express.js, and MongoDB. Built and deployed 8+ full-stack web applications with focus on performance optimization and scalable architecture. Proficient in modern JavaScript, Redux state management, RESTful API development, and database design. Strong problem-solving abilities with experience in agile development environments and cross-functional team collaboration.

CORE TECHNICAL SKILLS

Frontend Technologies: React.js, Redux, Redux Toolkit, JavaScript (ES6+), HTML5, CSS3, Bootstrap5, Tailwind CSS, Material-UI

Backend Technologies: Node.js, Express.js, RESTful APIs, JWT Authentication

Database and Storage: MongoDB, MongoDB Atlas

Development Tools: Git, GitHub, VS Code, Postman, NPM, Prettier

Cloud and Deployment: Netlify, Heroku, Docker (Basic), VPS Hosting (Basic), CI/CD, Render

PROFESSIONAL EXPERIENCE

MERN Stack Developer

Covance Softsol India, Pune

February 2025 – June 2025

- Developed MERN stack applications using React.js, Node.js, Express.js, and MongoDB serving multiple daily active users
- Implemented secure JWT-based authentication systems with Express.js middleware, reducing security vulnerabilities by 80%
- Built 15+ RESTful APIs using Node.js and Express.js for seamless React frontend integration, improving data sync efficiency by 60%
- Optimized React.js components using hooks, memo, and lazy loading techniques, resulting in 40% faster page load times

Web Developer (MERN)

Redphantom Tech Novelty, Pune

February 2023 – January 2025

- Built 4 custom interactive dashboards using React.js with reusable components and Redux for state management
- Designed and implemented MongoDB database schemas with Express.js APIs handling multiple records with optimized indexing
- Developed responsive React.js interfaces ensuring 100% cross-browser compatibility across Chrome, Firefox, Safari, and Edge
- Created full MERN stack applications with Node.js backends and React.js frontends for enterprise clients

Frontend Developer Intern (React JS)

Prepbytes, Gurgaon

July 2022 – December 2022

- Gained hands-on experience in modern React development practices including hooks, context API, and component lifecycle
- Implemented responsive design principles and accessibility standards (WCAG 2.1) across all React components

KEY PROJECTS

AINET - English Teachers Community Platform

Technologies: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT Authentication, MERN Stack

Live URL: <https://theainet.net/>

- Developed comprehensive MERN stack community platform serving 2,000+ English teachers with complete user management system
- Built React.js frontend with advanced component architecture, hooks, and context API for optimal performance
- Created RESTful APIs using Node.js and Express.js for seamless frontend-backend communication
- Designed MongoDB database schema with user authentication, content management, and role-based access control

E-commerce Application - Full Stack MERN Solution

Technologies: React.js, Node.js, Express.js, MongoDB, Stripe API, Redux, React Hooks

Live URL: <https://www.0dhni.in/>

- Built complete MERN stack e-commerce platform handling 500+ daily users
- Developed advanced React.js frontend with custom hooks, context API, and optimized component architecture
- Created comprehensive admin panel using React.js and Node.js for inventory management, order tracking, and sales analytics
- Designed MongoDB database schema with optimized indexing for product catalog and user data management
- Built RESTful APIs using Express.js for seamless frontend-backend communication and data synchronization

Infinity Cans - Digital Printing Business Website

Technologies: React.js, Tailwind CSS, EmailJS, Responsive Design

Live URL: <https://infinity-cans.netlify.app/>

- Created modern business website using React.js for digital printing company showcasing services and product gallery
- Implemented interactive product showcase with React.js components and image optimization for improved performance
- Integrated contact forms with EmailJS for direct client communication and business inquiry management

Personal Portfolio Website

Technologies: React.js, Tailwind CSS, EmailJS, Framer Motion

Live URL: <https://paresh-port-folio.netlify.app/>

- Designed and developed professional portfolio using React.js showcasing technical skills, projects, and achievements
- Implemented smooth animations and transitions using Framer Motion with React.js for enhanced user engagement
- Integrated contact form with EmailJS for direct communication with potential employers and clients
- Optimized for mobile responsiveness and accessibility standards ensuring broad device compatibility

React Blog Platform - Content Management System

Technologies: React.js, Context API, Local Storage, Responsive Design

Live URL: <https://paresh-blog-project.netlify.app/>

- Developed dynamic blog platform using React.js with full CRUD operations and content management capabilities
- Implemented advanced React.js features including categories, tags, search functionality, and reading time estimation

EDUCATION

Bachelor of Engineering

Savitribai Phule Pune University | Graduated: 2020

ADDITIONAL SKILLS

Languages: Marathi (Native), English (Professional), Hindi (Native)

Soft Skills: Team Leadership, Problem-Solving, Agile Methodologies, Client Communication, Project Management

Version Control: Git Workflows, Pull Requests, Code Reviews, Branch Management
